

Airports

Our multidisciplinary project team of professionals understands the environmental issues that may arise on airport projects around the world. We provide environment management plans for airport operators, lenders and contractors and advise on environmental risks and liabilities as part of due diligence.

We have extensive experience to ensure compliance for all environmental impact assessments and management plans.

We offer clients an extensive service range including:

- ✓ **Airport environment strategies**, reporting and management plans;
- ✓ **Environmental & Social Impact Assessments**;
- ✓ **Development** of Environmental Management Plans;
- ✓ **Environmental system development & Auditing ISO14001**;
- ✓ **Environmental monitoring** of groundwater, surface water and air quality;
- ✓ **Weed and pest management plans**;
- ✓ **Waste management advisory**;
- ✓ **Site contamination investigations**;
- ✓ **Rehabilitation plans and monitoring**;
- ✓ **Climate change studies**;
- ✓ **Community consultation**.
