

# Ecological Surveys

Our team have extensive experience in vegetation assessments and mapping, threatened species management, rehabilitation activities and flora and fauna impact assessments.

**We have undertaken projects working within Indigenous Protected Areas, National Parks, as well as infrastructure projects including greenfield developments and privately-owned properties.**

Ecobalance has a team of ecologists experienced in undertaking:

- ✓ **Flora and fauna surveys;**
- ✓ **Re-vegetation** and rehabilitation plans;
- ✓ **Weed surveys** and management plans;
- ✓ **Habitat** assessments;
- ✓ **Fauna spotter / catcher** services;
- ✓ **Threatened species** management;
- ✓ **Pre-clearing** surveys;
- ✓ **Development** of bushfire management plans;
- ✓ **Weed surveys** and management plans.
